MEMORANDUM FOR DISTRIBUTION

Subj: DoN IMPLEMENTATION MEMO 97-2; MULTIPLE  
CANCELLATIONS/INACTIVATIONS OF MILITARY  
SPECIFICATIONS AND STANDARDS

It has been DoN practice to permit CSIEs to request cancellations of multiple military specifications and standards in a single letter from the CSIE to ASN (RD&A) ARO. ASN (RD&A) ARO then endorses the request to OSD for implementation. This practice is in place of the preparation of individual cancellation notices for each document. In the interest of efficiency, we have also followed this practice to request the inactivation of multiple documents in a single letter. Any request for cancellation or inactivation must be consistent with the current approved disposition.

*L. F. Morris*
